

Freshly prepared  
to your taste

**“Only a custom made Kitchen  
can be absolutely perfect”.**

**Advanced Cabinetry doesn't sell 'kit' or 'flat pack' cabinets.**

**Every piece of cabinetry we make is tailored to our clients individual requirements. Nothing is standard because every home is different, and every need is different.**

**It is these differences that we embrace, whatever taste; modern, architectural, contemporary, traditional or practical, your specific needs for your kitchen will be served beautifully by Advanced Cabinetry.**

## **Advanced Cabinetry's ingredients for the perfect kitchen**

### **Design & Planning**

With professionally qualified and experienced consultants handling your project, Advanced Cabinetry's planning is second to none.

We consider numerous elements of planning such as the number of cooks using your Kitchen, what style of cooking you prefer and what your storage and ergonomic requirements are to ascertain the best solutions for your perfect Kitchen.

With literally thousands of choices available, you will find our staff's experience and knowledge invaluable in achieving the perfection you seek in

your project.

We use the very latest in design software to plan your Kitchen. The computer aided design allows us to illustrate to you in 3D your finished project. We pride ourselves on the ability to offer this high level of expertise and service regardless of budget and create amazing results for your renovation project or new home.

This method is a great way for you to visualise how your finished project will look. We then know exactly what we need to do to create the perfect final product. Our investment in the very best machinery and equipment

ensures the best possible outcome in terms of quality, accuracy and efficiency.

### **Materials & Hardware**

Advanced Cabinetry not only offer the very latest range of materials and hardware available, we also have access to some of the most innovative kitchen ideas such as one-touch motorised drawers, ambient lighting and various wireware storage solutions.

Brilliant new ideas are developing every day so visit our showroom and allow us to demonstrate the very

**bathrooms**

We create a haven within your home, a place of perfection, tranquillity, imagination and style.

That's the expectation of the modern bathroom.

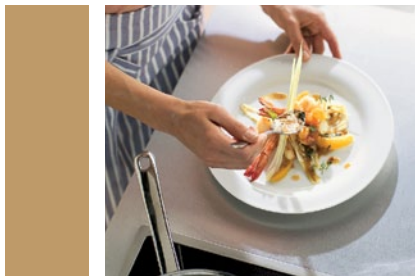

**Storage**

We can customise the perfect design solution.

Your home or office. Maybe something for 'that spot' or a storage solution for a study, pantry, laundry or specific work area.

“Your kitchen shouldn’t just work,  
it should work brilliantly”

latest and best in kitchen ideas.

Material options include...

**Benchtops ::**

Laminate, Granite Transformation™, CaesarStone™, Timber, Solid Granite, Acrylic.

**Doors ::**

Melamine, Vinyl, 2 Pack, Timber, Veneer, Aluminium, Powdercoat.

**Hardware & Appliances ::**

Versatile Drawer systems, Numerous Handle Options, Organisable Wireware, Range of Blum™ storage solutions, Door Fittings.

**Manufacturing**

We have and continue to invest heavily in the very latest machinery to deliver efficient and accurate products.

Our screen-to-machine facility directly cuts components from the design files. This same system then labels the components for manufacturing.

This efficiency not only provides a better quality result, but saves time.

Which are benefits our customers continue to appreciate.

**Installation**

Our installers are qualified trades people, we take great pride in carrying out the installation of your cabinetry.

Quality is of the upmost importance from the beginning to the end.

All our projects are pre-built within our manufacturing plant to ensure correctness and then disassembled to be safely transported to site and then installed. This minimises on-site hassles, ensures we are in and out efficiently.

Leaving you with cabinetry to enjoy for years to come.

Entertainment

Linear

Advanced Cabinetry is proud to present Linear, a striking new line of entertainment units.

Linear Cabinets are designed to meet the changing needs of the modern home’s entertainment systems.

We are committed to ongoing, sustainable quality.

## Quality Assured

Advanced Cabinetry is one of very few Cabinet Makers in Australia to achieve Quality Assured business practices. Our commitment to quality extends well beyond our Kitchens.

polytec **HAFELE** caesarstone®
