Our children's future is important to us,
That's why we source our timber from sustainable plantation forest owned and operated in Australia.

Australia & New Zealand Wide

Located on the Gold Coast, we supply nationally throughout Australia and internationally to New Zealand and the Pacific.

Through innovative partnerships with award winning cabinetmakers and kitchen designers, we achieve international distribution while remaining family owned and operated.

Our History

Starting in 1975 Christian Farmer's focus on continuous innovation has contributed to FARMERS® becoming a leader in the cabinetmaking industry.

Our dedicated team of craftsmen uses state of the art technology combined with timeless hand crafting to achieve enduring styles that will compliment your home.

Bringing *Families* together

8

Built and Designed by:

We believe the kitchen is the heart of your home, where families come together. Your family deserves to spend time in an outstanding environment.

With FARMERS® every project is unique and outstanding.... fluted pilasters, hand carved rosettes and corbels are all elegant accents. Add backlit cabinets for a romantic mood or a chandelier to produce stunning light and shadow effects.

Authentic and natural, FARMERS® employ only real timber components, hand crafted by skilled tradesmen. The perfect compliment to natural stone bench tops and timber floors.

Signature
series

The *Signature* series incorporates an advanced two tone finish, allowing you greater freedom to choose colour combinations for your project. Put simply, you design it, we create it.

Choose your base ANY1 colour, then choose a second “patina” layered colour meticulously hand rubbed into corners, joins and grain. The patina highlights the natural grain of the wood adding character and bringing your project to life.

Timber
feel the difference

The FARMERS difference is.....

Solid hoop pine timber (mouldings and features) and a combination of hoop pine timber veneer with a water resistant E-ZERO HMR MDF core (doors and panels) crafted from Australian environmentally sustainable forests.

Sealed and finished in a fully accredited waterborne paint system with extremely low VOC's. As we grow even stronger, we continue to branch out in future friendly ways, leaving a green legacy for generations to come.

- Butt joint construction
- Arrised to perfection (no sharp edges)
- Subtle accented wood Grain
- Patina
- Precise mitre
- Timber bolection mould
- Creative light and shadow
- Soft distressing
- Hand-Rub through
- Recessed panel

Choose Waterborne for Your Health and Environment

We only use waterborne paints...

Traditional paints and finishes produce vapours containing volatile organic compounds (VOCs).

VOCs are potentially harmful emissions that lead to poor air quality and contribute to global warming.

In our effort to produce a beautiful and healthy home for your family, we only use waterborne paints that contain one of the lowest VOC emission levels of any finish or paint in the world.
