

Conceptual Design Service

Our Conceptual Design service offers bespoke planning, layout & style advice to transform your new Kitchen or Cabinetry project. One of our design experts will work with you to create a Cabinetry design that is unique to you. This involves meeting with you to discuss your family needs and your wish list to conceptualise your project in a visual & budget perspective.

Cost: \$150.00 inc. GST within our service location (subsequent rooms \$50).

This payment will form part of your deposit if you place an order with Advanced Cabinetry.

How do we accomplish this?

1. In-Home or In-Showroom Consultation

- a. Develop a clearly defined Brief of your Project, by determining practical design requirements, discussing aesthetic and style preferences, project budget and proposed time frame.
- b. Undertake a review of the current layout and provide suggestions for improved functionality.
- c. Room dimensions gathered, with consideration to any proposed wall modifications.
- d. Review of services location, electrical and plumbing.
- e. Provide advice on Appliance selections.
- f. Discuss Flooring options and implications.

2. Conceptual Drawings

- a. Showroom presentation of initial concept design drawings based upon design brief.
- b. Showroom presentation of 1 x 3D video walkthrough of the room.

3. Proposal

- a. Provide a clear & precise scope of works outlining all materials, finishes & cabinetry included.
- b. Provide an accurate quotation outlining all associated cabinetry & installation cost in accordance with budget discussions.

Your peace of mind matters. Our promise to you, if you're not completely satisfied with your concept we will provide a revision at no extra cost.
