

# Accessibility Bathrooms

DESIGNERS & MAKERS OF  
beautiful interior spaces

Advanced Cabinetry, we pride ourselves on creating inclusive and functional living spaces for all individuals, and our expertise extends to the design and installation of accessibility bathrooms.

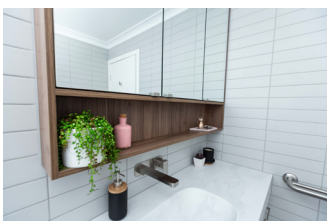

As a registered building practitioner, we are uniquely placed to not only employ innovative design principles and our numerous cabinetry solutions, but arrange and manage all trades and installations to ensure a seamless renovation. From strategically placed grab rails to custom-height basins and toilets, we plan each element to accommodate individuals with varying mobility needs.

This commitment to excellence goes beyond stylish cabinetry. We prioritise functionality and safety in every design. By incorporating accessible cabinetry solutions, we contribute to the creation of a comfortable and empowering bathroom space that enhances overall quality of life. This makes for a home that is universally welcoming and adaptable, and ensures that everyone can enjoy a stylish and accessible bathroom.

## A complete choice of accessibility options

A fully accessible bathroom featuring hobless shower base with tile insert to point drain, toilet handrail, shower grab rail with hand shower, shower curtain and tiled shower storage niche.

Quality and stylish finishes with safety in mind.

Accessible vanity with integrated basin.

Extra height toilet and bidet with custom raiser.

Combination heated towel rail hand and grab rail with electronic controller.
